

"Održavajte KlaTV Offline ažuriranim pomoću FreeFileSync-a (Mac, Linux, Windows) n mittels FreeFileSync (Mac, Linux, Windows)

1. Preuzmite i instalirajte

https://video.elaion.ch?video_by_id=2t6yMxMxMQC8

- Posjetite sljedeću web stranicu: <https://freefilesync.org/download.php>
- Posjetite sljedeću web stranicu:

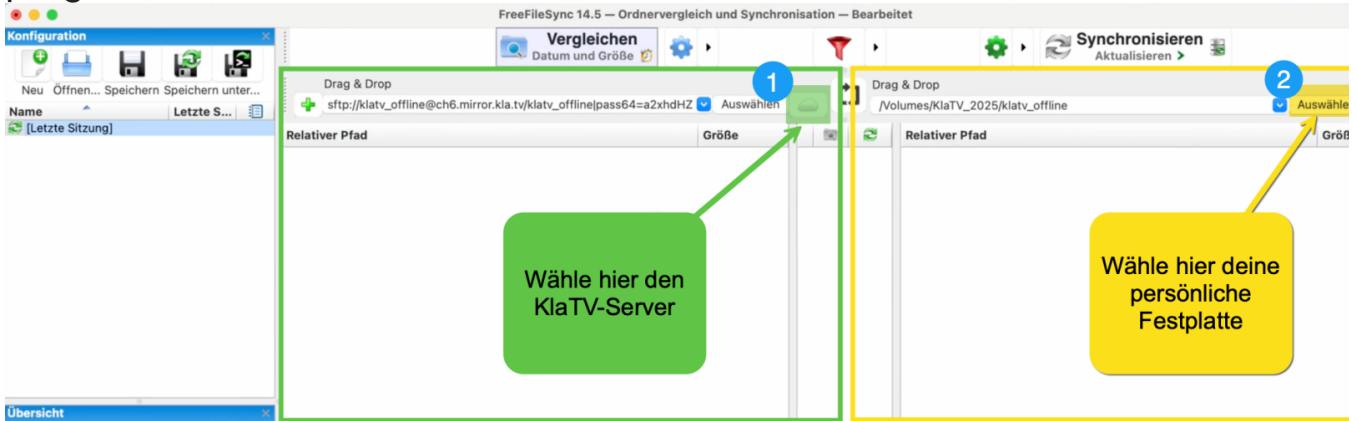

- Dvapot kliknite instalacijsku datoteku za instalaciju programa.

2. Veza sa poslužiteljem i postavke programa

https://video.elaion.ch?video_by_id=AD2jcRW25Q80

- Otvorite instalirani program "FreeFileSync". Evo slike koja objašnjava program:

- U lijevom panelu kliknite ikonu oblaka 1?? (vidi gore) da biste se povezali s KlaTV poslužiteljem koristeći sljedeće postavke:

>> Idite na www.kla.tv/offline > podatke za prijavu pronađite pod "Pitanja i odgovori". Kliknite ikonu za kopiranje i zalijepite ih u FreeFileSync:

Fragen & Antworten

Ich möchte "Kla.TV-Offline" herunterladen. Wie soll ich vorgehen?

Du kannst das Archiv über einen Serverzugang (SFTP) herunterladen. Je nach Internetgeschwindigkeit kann es mehrere Tage dauern, bis du das ganze Kla.TV-Archiv heruntergeladen hast. Du benötigst dafür ein Programm auf deinem Computer - zum Beispiel [WinSCP](#) oder [FileZilla](#):

Serverpfad	<input type="text" value="sftp://ch7.mirror.kla.tv"/>	
Benutzer	<input type="text" value="klatv_offline"/>	
Passwort	<input type="text" value="klatv_offline"/>	

Klicke auf das Kopieren-Symbol und füge es in FreeFileSync ein

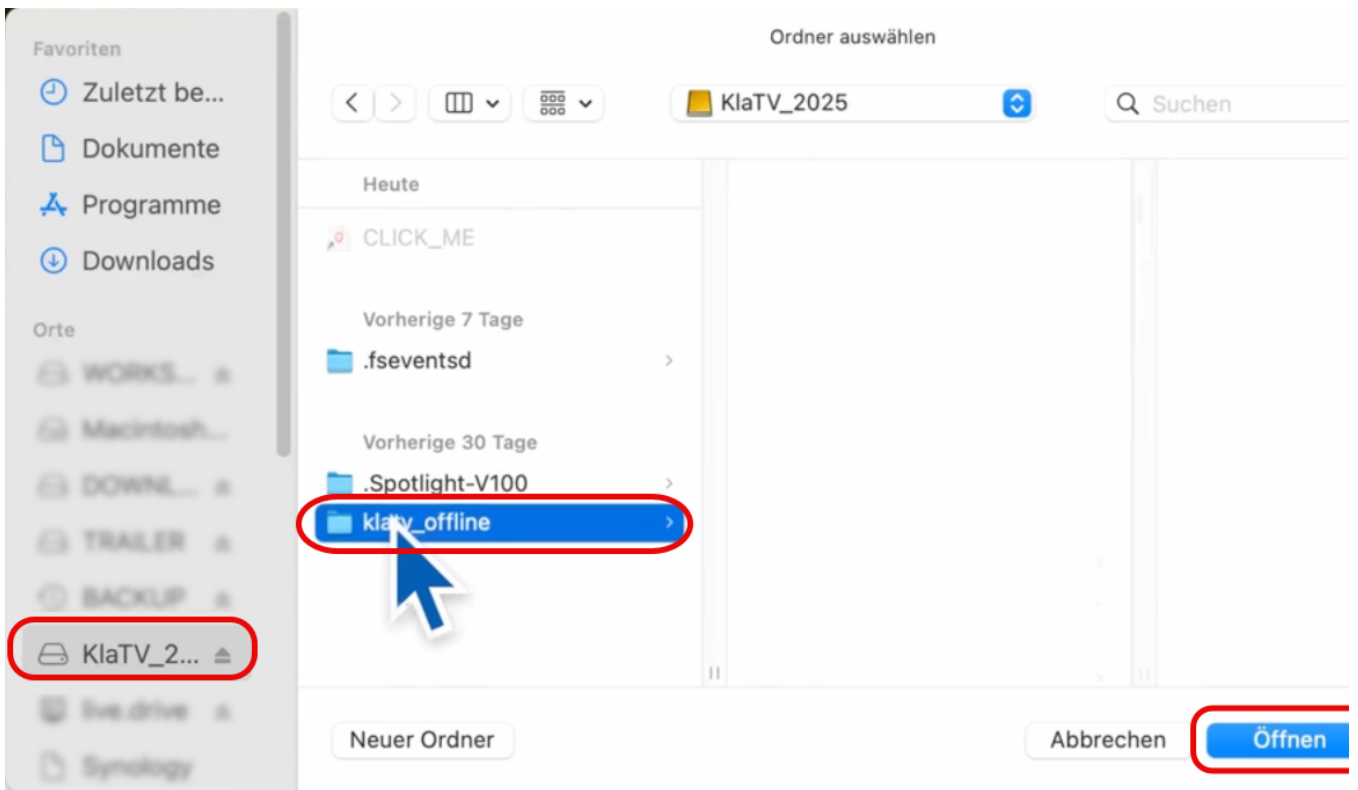

[Detaillierte Anleitung wiki.kla.tv](#)

(Zašto kopirati s web stranice? = Jer se pristup poslužitelju tamo dodjeljuje nasumično.)

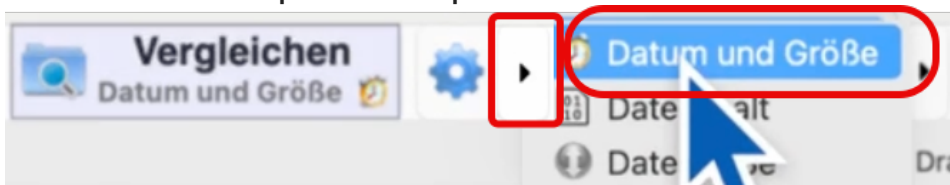

- U desnoj ploči kliknite 2?? "Odaberi" za povezivanje s vašim osobnim tvrdim diskom:

Wähle hier deine persönliche Festplatte

- Odaberite mapu "klatv_offline" i kliknite "Otvori".

- Kliknite strelicu pored "Usporedi" > odaberite "Datum i veličina"

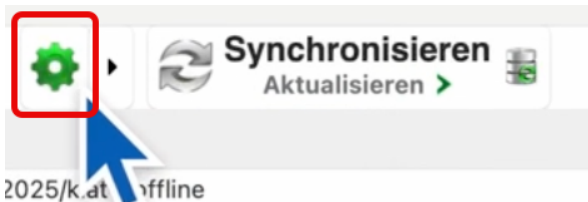

- Kliknite strelicu pored "Sinkroniziraj" > odaberite "**Ažuriraj**"

Ako odaberete opciju "**Ažuriraj**", videozapisi koji su izbrisani ili preimenovani na Kla.TV poslužitelju ostat će na vašem tvrdom disku. Međutim, to može zahtijevati više prostora za pohranu na tvrdom disku. Ako vam ponestane slobodnog prostora na tvrdom disku od 2 TB, morat ćete odabrati "**Zrcali**". "Kla.TV Offline" je uvijek dovoljno velik da stane na tvrdi disk od 2 TB!

- Kliknite zelenu ikonu zupčanika pod "Sinkronizacija" i konfigurirajte sljedeće postavke:

- Za početak postupka kliknite "Usporedi" (ovo traje otprilike 10 minuta).

3. Sinkronizacija

https://video.elaion.ch?video_by_id=pwccdBD356Zl

- Nakon postupka usporedbe, vidjet ćete popis svega što će se kopirati.
Kliknite "**Sinkroniziraj**" > "**Pokreni**"

In der Liste sieht man, was alles aktualisiert wird

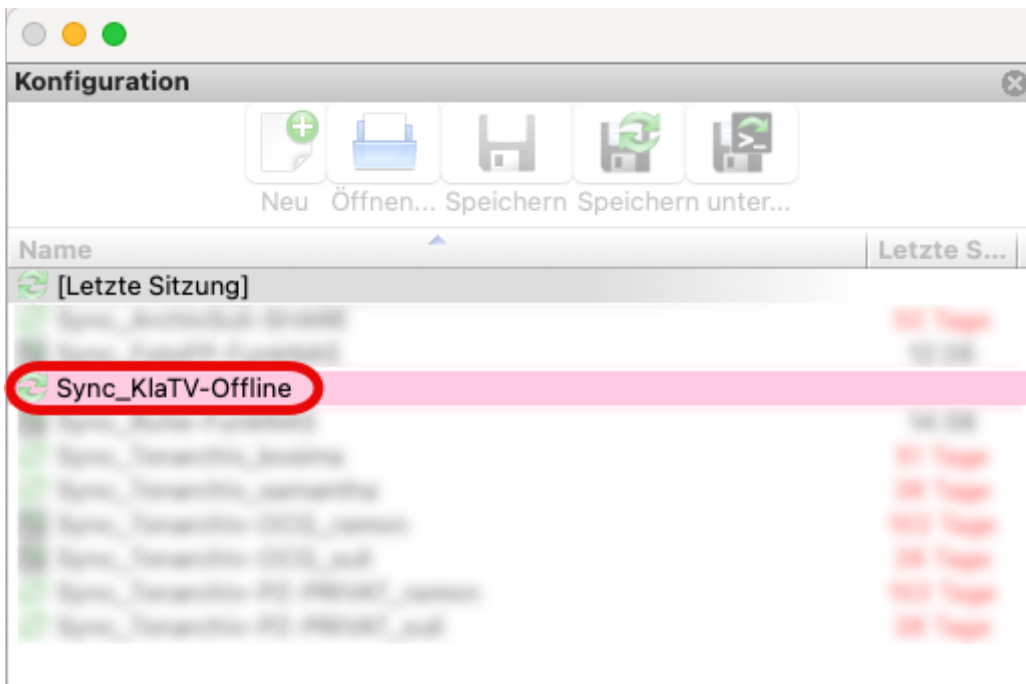

- Vaš ?e tvrdi disk ponovno biti ažuriran nakon postupka kopiranja!

SAVJET: Kako biste izbjegli ponovnu konfiguraciju postavki FreeFileSync svaki put, spremite ih nakon ovog postupka:

- Kliknite ikonu "Spremi" > odaberite naziv, npr. "Sync_KlaTV-Offline"

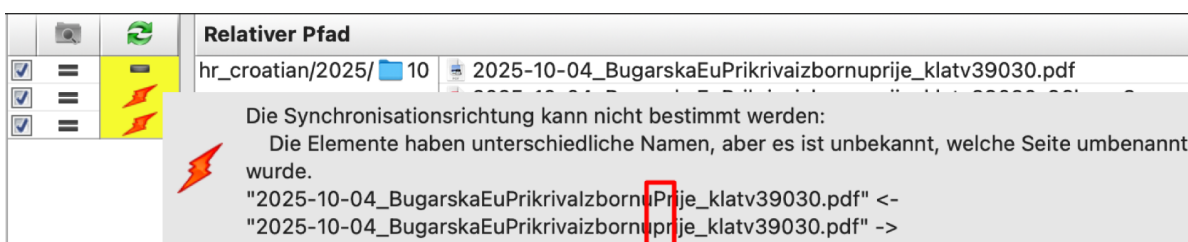

- Za kasnije ažuriranje tvrdog diska dvaput kliknite "Sync_KlaTV-Offline" i proces ?e se automatski pokrenuti sa svim ispravnim postavkama.

?estitamo!?

Kratka napomena: Ako se prije ili tijekom sinkronizacije pojave upozorenja, na primjer zato što se nešto ne može kopirati, slobodno kliknite "Pokušaj ponovno". Postupak kopiranja obično ponovno funkcionira. Inače, u mnogim slučajevima možete kliknuti i "Zanemari" jer upozorenje nije relevantno; na primjer, u ovom konkretnom slučaju, samo je jedno slovo bilo malo umjesto velikog, ali datoteka je bila ista:

Poruka o pogrešci "Neuspješno otvaranje udaljene datoteke" može se zanemariti! To se događa jer FreeFileSync pokušava pohraniti svoju bazu podataka za sinkronizaciju (`.sync.ffs_db`) na udaljeni poslužitelj, što nije dopušteno.
