

How long does it take to download “Kla.TV-Offline” to a hard disk via the Internet?

1. Speedtest

First do a speed test (see link below) and find out which “vehicle” (Internet speed) you have. In the table (under 2.) you can see how long it will take you to download Kla.TV-Offline at this speed.

<https://www.speedtest.net/>

On the page you press GO, the test takes a short time and then the results are displayed, e.g. as follows:

Take the first two numbers under “Download”. This is your download speed in Mbps.

2. Download duration of “Kla.TV-Offline”

| Vehicle | Your download speed | Download duration (1.7TB) |
|---------|---------------------|---------------------------|
| | | |

| | | |
|--|---------------------------------|-------------------------|
|  <p>Tricycle</p> | <p>0.25 - 1 Mbps</p> | <p>approx. 300 days</p> |
|  <p>Inline skates</p> | <p>2 - 4 Mbps</p> | <p>approx. 50 days</p> |
|  <p>Bike</p> | <p>5 - 9 Mbps</p> | <p>approx. 25 days</p> |
